

RAVINDU GUNASEKARA

COMPUTER SCIENCE STUDENT | IT SUPPORT & SYSTEMS | CYBERSECURITY

Germantown, MD | 240-756-2876 | ravipgunasekara@gmail.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL PROFILE

Computer Science student with hands-on experience in enterprise IT support, Microsoft Power Platform development, workflow automation, and technical troubleshooting. Strong foundation in operating systems, networking, cybersecurity, databases, systems programming, and full-stack software development.

TECHNICAL SKILLS

Languages & Scripting: C, C++, Python, JavaScript, SQL, PowerShell, Power Fx, HTML, CSS, Regex

Systems & Platforms: Windows, Linux, WSL, Proxmox, Power Apps, Power Automate, Dataverse

Development & Collaboration: Git, GitHub, Visual Studio, VS Code, GDB, React, Tailwind CSS, Jira, Scrum

Networking & Security: Wireshark, Kali Linux, Autopsy, The Sleuth Kit, FTK Imager, Ncat

PROFESSIONAL EXPERIENCE

TEBS Intern | Montgomery County Government (Maryland) - TEBS

Jun 2026 - Aug 2026

- Engineered a Power Apps inventory solution using Power Fx and Dataverse to track departmental devices, implementing search, filtering, sorting, CRUD operations, and interactive inventory metrics.
- Managed GitHub Copilot pilot program, analyzing usage data from CSV and NDJSON sources to calculate adoption metrics, and presenting findings to pilot participants and TEBS leadership.
- Troubleshot KnowledgeLake connections authentication, document processing issues, and categorized unresolved batches for further resolution.
- Supported enterprise application operations by migrating SAP Crystal Reports folders between servers for an upgrade with SQL-based environment validation.
- Automated business workflows with Power Automate, generating customized HTML email notifications from form submissions and communicating with stakeholders to gather requirements, test functionality, and validate the solution.

AIM Data Specialist | ARC Document Solutions

Jun 2025 - Aug 2025

- Performed high-volume data validation and quality assurance on scanned police reports and document repositories, identifying image and data-quality issues for government and professional sports clients.
- Configured and imaged Windows workstations with standardized system builds, required software, and configurations for a large-scale digitization project.

AV Student Specialist I | UMBC DoIT - AV Operations

May 2024 - Dec 2024

- Provided technical support for classroom and office AV/conferencing systems, troubleshooting projectors, control panels, and related endpoints across campus.
- Resolved incidents through RT help desk tickets, phone support, and walk-ins; assisted with digital signage replacements and earned the AVIXA AV Technologist certificate.

TECHNICAL PROJECTS

Kernel Messaging System | C | Linux | System Calls | Concurrency

- Implemented kernel-space mailboxes and a user-facing API, using mutexes and semaphores to provide thread-safe priority-based concurrent message processing.

FUSE Filesystem | C | Linux | FUSE

- Built a single-level filesystem supporting file creation, reads, appends, deletion, metadata operations, and persistence validation across unmount/remount cycles.

Simple Shell | C | Processes | Command Parsing

- Developed a command shell with separate-process execution, built-in commands, command history, variable-length input handling, and validation logic.

Soccer Tracker Web App | Full Stack | APIs | GitHub | Jira

- Collaborated in a Scrum team to build a full-stack soccer statistics application, integrating APIs, version control, sprint planning, and responsive accessible UI design.

EDUCATION & CREDENTIALS

B.S. in Computer Science, University of Maryland, Baltimore County

Aug 2023 - May 2027

GPA: 3.286 | **Scholarship:** UMBC Merit Scholarship

Relevant Coursework: Computer Architecture, Operating Systems, Algorithms, Software Engineering, Computer Networks, Database Management Systems, Network Security, Applied AI in Cybersecurity

Certifications: CompTIA Security+ (In Progress); AVIXA AV Technologist

Activities: CyberDawgs (2024 - Present); UMBC Gaming & Esports (2024 - Present); System Administration and Software Development Club (2026 - Present)
